Rehabilitation NURSING

Index of 1999 Articles

This index of articles is divided into two parts. The first part lists articles by topic in this format: *title, author(s); issue number: initial page number.* In this listing, (CE) indicates a continuing education feature, (P) indicates a Perspectives article, and (CI) indicates a Current Issues article. The second part of the index lists each author and the corresponding issue and initial page number of his or her article.

Alphabetical Listing by Topic

Accidental Falls
"Getting up from here": Frail older women's experiences after falling (CE); Porter, E.J.; 5:201
Mechanical restraints, rehabilitation therapies, and staffing adequacy as risk factors for falls in an elderly hospitalized population (CE); Arbesman, M.C., Wright, C.; 3:122

Adherence
Cardiac rehabilitation: Participating in an exercise program is a quest to survive; Mitchell, R., Muggli, M., Sato, A; 6:##

Admission Screening
A decentralized admission screening protocol for a geriatric rehabilitation program: Does it make a difference? (CE); Tourangeau, A., Prentice, D., Costello, S.; 2:62

Adolescents
A multimodal approach to treatment of aggression in a severely brain-injured adolescent (CE); Teichner, G., Golden, C.J., Giannaris, W.J.; 5:207

Aggression
A multimodal approach to treatment of aggression in a severely brain-injured adolescent (CE); Teichner, G., Golden, C.J., Giannaris, W.J.; 5:207

Aging
"Getting up from here": Frail older women's experiences after falling (CE); Porter, E.J.; 5:201
Mechanical restraints, rehabilitation therapies, and staffing adequacy as risk factors for falls in an elderly hospitalized population (CE); Arbesman, M.C., Wright, C.; 3:122

Antiobiotic Resistance
Management of antibiotic-resistant organisms in the rehabilitation setting (CI); Flynn, E.R., 6:232

Assessment of Orientation
Nurses' assessment of patients' cognitive orientation in a rehabilitation setting (CE); Alverzo, J.P., Galski, T.G.; 1:7

Autonomic Dysreflexia
Autonomic dysreflexia: A clinical rehabilitation problem (CE); Travers, P.L.; 1:19

Behavior
Using contingency management to reduce the incidence of pressure ulcers in a patient with a history of related surgeries (P); Mathewson, C., Ayllon, T., Adkins, V.K., Lenyoun, M., Jones, M.L.; 6:234

Brain Injury
A multimodal approach to treatment of aggression in a severely brain-injured adolescent (CE); Teichner, G., Golden, C.J., Giannaris, W.J.; 5:207

Cardiac Rehabilitation
An interdisciplinary approach to the rehabilitation of open-heart surgical patients (CE); Carbone, L.M.; 2:55
Cardiac rehabilitation: Participating in an exercise program is a quest to survive; Mitchell, R., Muggli, M., Sato, A; 6:236
Home cardiac rehabilitation for congestive heart failure: A nursing case management approach (CE); Goodwin, B.A.; 4:143
Personal perceptions and women's participation in cardiac rehabilitation (CE); Missik, E.; 4:158

Caregivers
Quality of life for family caregivers of people with chronic health problems (CE); Canam, C., Acorn, S; 5:192

Case Management
Home cardiac rehabilitation for congestive heart failure: A nursing case management approach (CE); Goodwin, B.A.; 4:143

Chronic Illness
A nursing practice model for chronic illness; Burks, K.J.; 5:197

Clinical Outcomes
Conducting biological research to advance rehabilitation nursing practice; St. Pierre Schneider, B., Flaskerud, J.H.; 4:166

Cognitive Assessment
Nurses' assessment of patients' cognitive orientation in a rehabilitation setting (CE); Alverzo, J.P., Galski, T.G.; 1:7

Communication
Colors, symbols, and other communication ideas (P); Weeks, S.K.; 5:190

Contingency Management
Using contingency management to reduce the incidence of pressure ulcers in a patient with a history of related surgeries (P); Mathewson, C., Ayllon, T., Adkins, V.K., Lenyoun, M., Jones, M.L.; 6:234

Continuity of Care
An interdisciplinary approach to the rehabilitation of open-heart surgical patients (CE); Carbone, L.M.; 2:55

Discharge Destination
Using the Functional Independence Measure instrument to predict stroke rehabilitation outcomes; Black, T.M., Soltis, T., Bartlett, C.; 3:109

Documentation
Where is rehabilitation nursing documentation going? (CI); Cervizzi, K., Edwards, P.A.; 3:92

Dysphagia
Poststroke dysphagia: Implications for nurses (CE); Travers, P.L.; 2:69

Emotional Needs
Meeting the emotional needs of a patient; Lambert, J.; 4:141

Exercise
Cardiac rehabilitation: Participating in an exercise program is a quest to survive; Mitchell, R., Muggli, M., Sato, A; 6:236

Family Caregivers
Social problem-solving partnerships with family caregivers; Grant, J.S.; 6:254

Focus Groups
Using focus groups in rehabilitation nursing; Easton, K.L.; 5:211

Functional Independence Measure
Using the Functional Independence Measure instrument to predict stroke rehabilitation outcomes; Black, T.M., Soltis, T., Bartlett, C.; 3:109

Geriatric Rehabilitation
A decentralized admission screening protocol for a geriatric rehabilitation program: Does it make a difference? (CE); Tourangeau, A., Prentice, D., Costello, S.; 2:62

Hemodialysis
Sexual dysfunction in men on chronic hemodialysis: A rehabilitation nursing concern (CE); Newton, S.E.; 1:24

Home Health Rehabilitation
Home cardiac rehabilitation for congestive heart failure: A nursing case management approach (CE); Goodwin, B.A.; 4:143
Important changes in home health care (CI); Neal, L.J.; 1:4
Research supporting the congruence between rehabilitation principles and home health nursing practice; Neal, L.J.; 3:115

Hyperreflexia
Autonomic dysreflexia: A clinical rehabilitation problem (CE); Travers, P.L.; 1:19

Infection Control in Rehabilitation
Management of Antibiotic-resistant organisms in the rehabilitation setting (CI); Flynn, E.R., 6:232

Interdisciplinary Teams
A patient education MAP: An integrated, collabarative approach for rehabilitation; North, M.C., Harbin, C.B., Clark, K.G.; 1:13
An exploratory study of nurses' perceptions of their role in neurological rehabilitation; Hill, M.C., Johnson, J.; 4:152
An interdisciplinary approach to the rehabilitation of open-heart surgical patients (CE); Carbone, L.M.; 2:55
Poststroke dysphagia: Implications for nurses (CE); Travers, P.L.; 2:69

Job Characteristics
Job characteristics related to job satisfaction in rehabilitation nursing (CE); Crose, P.S.; 3:95

Job Satisfaction
Job characteristics related to job satisfaction in rehabilitation nursing (CE); Crose, P.S.; 3:95

Latex Allergy
Latex allergy: Another real Y2K issue (CI); Jennings, L.M.; 4:140

Masturbation
Sexual dysfunction in men on chronic hemodialysis: A rehabilitation nursing concern (CE); Newton, S.E.; 1:24

Multiple Sclerosis
Music therapy as a treatment method for improving respiratory muscle strength in patients with advanced multiple sclerosis: A pilot study; Wiens, M.E., Reimer, M.A., Guyn, H.L.; 2:74
The diagnosis of multiple sclerosis: Peplau's interpersonal relations model in practice; McGuinness, S.D., Peters, S.; 1:30

Music Therapy
Music therapy as a treatment method for improving respiratory muscle strength in patients with advanced multiple sclerosis: A pilot study; Wiens, M.E., Reimer, M.A., Guyn, H.L.; 2:74

Neurological Assessment
Nurses' assessment of patients' cognitive orientation in a rehabilitation setting (CE); Alverzo, J.P., Galski, T.G.; 1:7

Neurological Rehabilitation
An exploratory study of nurses' perceptions of their role in neurological rehabilitation; Hill, M.C., Johnson, J.; 4:152

Nurse-Patient Relationships
The diagnosis of multiple sclerosis: Peplau's interpersonal relations model in practice; McGuinness, S.D., Peters, S.; 1:30
Implementing practice innovations to improve nurse-client relationships (P); Sciabarra, C., Kronawetter, N., Jacob, M., Ruelo, V., Falero, Y., Quigley, P.A.; 2:51

Rehabilitation NURSING

Index of 1999 Articles

This index of articles is divided into two parts. Home cardiac rehabilitation for congestive heart failure: A nursing case management approach (CE); Goodwin, B.A.; 4:143
Personal perceptions and women's participation in cardiac rehabilitation (CE); Missik, E.; 4:158

Caregivers
Quality of life for family caregivers of people with chronic health problems (CE); Canam, C., Acorn, S; 5:192

Case Management
Home cardiac rehabilitation for congestive heart failure: A nursing case management approach (CE); Goodwin, B.A.; 4:143

Chronic Illness
A nursing practice model for chronic illness; Burks, K.J.; 5:197

Clinical Outcomes
Conducting biological research to advance rehabilitation nursing practice; St. Pierre Schneider, B., Flaskerud, J.H.; 4:166

Cognitive Assessment
Nurses' assessment of patients' cognitive orientation in a rehabilitation setting (CE); Alverzo, J.P., Galski, T.G.; 1:7

Communication
Colors, symbols, and other communication ideas (P); Weeks, S.K.; 5:190

Contingency Management
Using contingency management to reduce the incidence of pressure ulcers in a patient with a history of related surgeries (P); Mathewson, C., Ayllon, T., Adkins, V.K., Lenyoun, M., Jones, M.L.; 6:234

Continuity of Care
An interdisciplinary approach to the rehabilitation of open-heart surgical patients (CE); Carbone, L.M.; 2:55

Discharge Destination
Using the Functional Independence Measure instrument to predict stroke rehabilitation outcomes; Black, T.M., Soltis, T., Bartlett, C.; 3:109

Documentation
Where is rehabilitation nursing documentation going? (CI); Cervizzi, K., Edwards, P.A.; 3:92

Dysphagia
Poststroke dysphagia: Implications for nurses (CE); Travers, P.L.; 2:69

Emotional Needs
Meeting the emotional needs of a patient; Lambert, J.; 4:141

Exercise
Cardiac rehabilitation: Participating in an exercise program is a quest to survive; Mitchell, R., Muggli, M., Sato, A; 6:236

Family Caregivers
Social problem-solving partnerships with family caregivers; Grant, J.S.; 6:254

Focus Groups
Using focus groups in rehabilitation nursing; Easton, K.L.; 5:211

Functional Independence Measure
Using the Functional Independence Measure instrument to predict stroke rehabilitation outcomes; Black, T.M., Soltis, T., Bartlett, C.; 3:109

Geriatric Rehabilitation
A decentralized admission screening protocol for a geriatric rehabilitation program: Does it make a difference? (CE); Tourangeau, A., Prentice, D., Costello, S.; 2:62

Hemodialysis
Sexual dysfunction in men on chronic hemodialysis: A rehabilitation nursing concern (CE); Newton, S.E.; 1:24

Home Health Rehabilitation
Home cardiac rehabilitation for congestive heart failure: A nursing case management approach (CE); Goodwin, B.A.; 4:143
Important changes in home health care (CI); Neal, L.J.; 1:4
Research supporting the congruence between rehabilitation principles and home health nursing practice; Neal, L.J.; 3:115

Hyperreflexia
Autonomic dysreflexia: A clinical rehabilitation problem (CE); Travers, P.L.; 1:19

Infection Control in Rehabilitation
Management of Antibiotic-resistant organisms in the rehabilitation setting (CI); Flynn, E.R., 6:232

Interdisciplinary Teams
A patient education MAP: An integrated, collabarative approach for rehabilitation; North, M.C., Harbin, C.B., Clark, K.G.; 1:13
An exploratory study of nurses' perceptions of their role in neurological rehabilitation; Hill, M.C., Johnson, J.; 4:152
An interdisciplinary approach to the rehabilitation of open-heart surgical patients (CE); Carbone, L.M.; 2:55
Poststroke dysphagia: Implications for nurses (CE); Travers, P.L.; 2:69

Job Characteristics
Job characteristics related to job satisfaction in rehabilitation nursing (CE); Crose, P.S.; 3:95

Job Satisfaction
Job characteristics related to job satisfaction in rehabilitation nursing (CE); Crose, P.S.; 3:95

Latex Allergy
Latex allergy: Another real Y2K issue (CI); Jennings, L.M.; 4:140

Masturbation
Sexual dysfunction in men on chronic hemodialysis: A rehabilitation nursing concern (CE); Newton, S.E.; 1:24

Multiple Sclerosis
Music therapy as a treatment method for improving respiratory muscle strength in patients with advanced multiple sclerosis: A pilot study; Wiens, M.E., Reimer, M.A., Guyn, H.L.; 2:74
The diagnosis of multiple sclerosis: Peplau's interpersonal relations model in practice; McGuinness, S.D., Peters, S.; 1:30

Music Therapy
Music therapy as a treatment method for improving respiratory muscle strength in patients with advanced multiple sclerosis: A pilot study; Wiens, M.E., Reimer, M.A., Guyn, H.L.; 2:74

Neurological Assessment
Nurses' assessment of patients' cognitive orientation in a rehabilitation setting (CE); Alverzo, J.P., Galski, T.G.; 1:7

Neurological Rehabilitation
An exploratory study of nurses' perceptions of their role in neurological rehabilitation; Hill, M.C., Johnson, J.; 4:152

Nurse-Patient Relationships
The diagnosis of multiple sclerosis: Peplau's interpersonal relations model in practice; McGuinness, S.D., Peters, S.; 1:30
Implementing practice innovations to improve nurse-client relationships (P); Sciabarra, C., Kronawetter, N., Jacob, M., Ruelo, V., Falero, Y., Quigley, P.A.; 2:51

Orientation
Nurses' assessment of patients' cognitive orientation in a rehabilitation setting (CE); Alverzo, J.P., Galski, T.G.; 1:7

Outcomes
Outcomes: What's all the fuss about (CI)? Black, T.; 5:188
Outcomes of nurse caring as perceived by spinal cord injured individuals during rehabilitation (CE); Lucke, K.T.; 6:247
Using the Functional Independence Measure instrument to predict stroke rehabilitation outcomes; Black, T.M., Soltis, T., Bartlett, C.; 3:109

Patient Classification System
A collaborative assessment of workload and patient care needs in four rehabilitation facilities; Flynn, E., Heinzer, M.M., Radwanski, M.; 3:103

Patient/Family Education
A patient education MAP: An integrated, collabarative approach for rehabilitation; North, M.C., Harbin, C.B., Clark, K.G.; 1:13

Patients' Perceptions
Personal perceptions and women's participation in cardiac rehabilitation (CE); Missik, E.; 4:158

Perceptions of Nursing Roles
An exploratory study of nurses' perceptions of their role in neurological rehabilitation; Hill, M.C., Johnson, J.; 4:152

Phenomenology
Continuity and discontinuity: The quality of life following stroke (CE); Secrest, J.A., Thomas, S.P.; 6:240
Physical Environment
"Getting up from here": Frail older women's experiences after falling (CE); Porter, E.J.; 5:201

Physical Restraints
Mechanical restraints, rehabilitation therapies, and staffing adequacy as risk factors for falls in an elderly hospitalized population (CE); Arbesman, M.C., Wright, C.; 3:122

Physiological Research
Conducting biological research to advance rehabilitation nursing practice; St. Pierre Schneider, B., Flaskerud, J.H.; 4:166

Postoperative Care
An interdisciplinary approach to the rehabilitation of open-heart surgical patients (CE); Carbone, L.M.; 2:55

Practice Innovations
Implementing practice innovations to improve nurse-client relationships (P); Sciabarra, C., Kronawetter, N., Jacob, M., Ruelo, V., Falero, Y., Quigley, P.A.; 2:51

Pressure Ulcers
Using Contingency Management to Reduce the Incidence of Pressure Ulcers in a Patient with a History of Related Surgeries (P); Mathewson, C., Ayllon, T., Adkins, V.K., Lenyoun, M., Jones, M.L.; 6:234

Pyschosocial Issues
The diagnosis of multiple sclerosis: Peplau's interpersonal relations model in practice; McGuinness, S.D., Peters, S.; 1:30

Quality Improvement
A patient education MAP: An integrated, collabarative approach for rehabilitation; North, M.C., Harbin, C.B., Clark, K.G.; 1:13

Quality of Care
An exploratory study of nurses' perceptions of their role in neurological rehabilitation; Hill, M.C., Johnson, J.; 4:152

Quality of Life
Continuity and discontinuity: The quality of life following stroke (CE); Secrest, J.A., Thomas, S.P.; 6:240
Quality of life for family caregivers of people with chronic health problems (CE); Canam, C., Acorn, S; 5:192

Rehabilitation
A multimodal approach to treatment of aggression in a severely brain-injured adolescent (CE); Teichner, G., Golden, C.J., Giannaris, W.J.; 5:207
Cardiac rehabilitation: Participating in an exercise program is a quest to survive; Mitchell, R., Muggli, M., Sato, A; 6:236
Identifying and overcoming barriers to providing sexuality information in the clinical setting (CE); Herson, L., Hart, K.A., Gordon, M.J., Rintala, D.H.; 4:148
Outcomes of nurse caring as perceived by spinal cord injured individuals during rehabilitation (CE); Lucke, K.T.; 6:247
Research supporting the congruence between rehabilitation principles and home health nursing practice; Neal, L.J.; 3:115
Sexual dysfunction in men on chronic hemodialysis: A rehabilitation nursing concern (CE); Newton, S.E.; 1:24

Rehabilitation Facilities
A collaborative assessment of workload and patient care needs in four rehabilitation facilities; Flynn, E., Heinzer, M.M., Radwanski, M.; 3:103

Rehabilitation Nursing
Identifying and overcoming barriers to providing sexuality information in the clinical setting (CE); Herson, L., Hart, K.A., Gordon, M.J., Rintala, D.H.; 4:148
Where is rehabilitation nursing documentation going? (CI); Cervizzi, K., Edwards, P.A.; 3:92

Rehabilitation Providers
Transfer rule: Boon or bane for rehabilitation providers? (CI); Zollar, C.C.; 2:48

Reintegration
Outcomes of nurse caring as perceived by spinal cord injured individuals during rehabilitation (CE); Lucke, K.T.; 6:247

Research
Research supporting the congruence between rehabilitation principles and home health nursing practice; Neal, L.J.; 3:115

Respiratory Muscle Strength
Music therapy as a treatment method for improving respiratory muscle strength in patients with advanced multiple sclerosis: A pilot study; Wiens, M.E., Reimer, M.A., Guyn, H.L.; 2:74

Self Care
A nursing practice model for chronic illness; Burks, K.J.; 5:197

Self Management
A nursing practice model for chronic illness; Burks, K.J.; 5:197

Sexual Dysfunction
Sexual dysfunction in men on chronic hemodialysis: A rehabilitation nursing concern (CE); Newton, S.E.; 1:24

Sexuality
Identifying and overcoming barriers to providing sexuality information in the clinical setting (CE) ; Herson, L., Hart, K.A., Gordon, M.J., Rintala, D.H.; 4:148

Social Problem Solving
Social problem-solving partnerships with family caregivers; Grant, J.S.; 6:254

Spinal Cord Injury
Autonomic dysreflexia: A clinical rehabilitation problem (CE); Travers, P.L.; 1:19
Outcomes of nurse caring as perceived by spinal cord injured individuals during rehabilitation (CE); Lucke, K.T.; 6:247

Staff Retention
Job characteristics related to job satisfaction in rehabilitation nursing (CE); Crose, P.S.; 3:95

Staffing
Mechanical restraints, rehabilitation therapies, and staffing adequacy as risk factors for falls in an elderly hospitalized population (CE); Arbesman, M.C., Wright, C.; 3:122

Stroke
Continuity and discontinuity: The quality of life following stroke (CE); Secrest, J.A., Thomas, S.P.; 6:240
Poststroke dysphagia: Implications for nurses (CE); Travers, P.L.; 2:69
Using focus groups in rehabilitation nursing; Easton, K.L.; 5:211
Using the Functional Independence Measure instrument to predict stroke rehabilitation outcomes; Black, T.M., Soltis, T., Bartlett, C.; 3:109
Social problem-solving partnerships with family caregivers; Grant, J.S.; 6:254

Stroke Survivors
Social problem-solving partnerships with family caregivers; Grant, J.S.; 6:254

Transfer Rule
Transfer rule: Boon or bane for rehabilitation providers? (CI); Zollar, C.C.; 2:48

Women
"Getting up from here": Frail older women's experiences after falling (CE); Porter, E.J.; 5:201
Personal perceptions and women's participation in cardiac rehabilitation (CE); Missik, E.; 4:158

Work Load
A collaborative assessment of workload and patient care needs in four rehabilitation facilities; Flynn, E., Heinzer, M.M., Radwanski, M.; 3:103
